

**ANNANDALE**  
HOME IMPROVEMENTS

## DOOR RANGE

- ✓ **Local Business**
- ✓ **Quality Products**
- ✓ **Reliable Service**
- ✓ **Highly Recommended**
- ✓ **Competitive Prices**

Compliment your home exterior with a brand new door. Our door ranges not only improve the look of your home, but can provide greater security, more light, a change of colour and even better heat sealing to keep draughts out.

Sleep soundly  
with our Secured  
by Design police  
approved cylinder

YOU'RE  
HOME NOW

Our police-approved, 'secured by design' anti-bump, anti- drill, anti-pick and anti-snap Kitemarked cylinder lock barrels are fitted as standard to every Apeer door. And if that isn't enough to put off even the most determined criminal, our triple glazed, anti-tamper glazing system will.

# SECURED by design\*

**Locking System**  
Multi-point locking system is fitted as standard to reinforce the concept of safety in your home.

**Steel Hinge Bolts**  
Steel hinge bolts secure the door to the frame on Apeer70 only, protecting against intruders.

\* Secured by Design doors must be ordered with laminated glass.

Steel Hinge Bolts

Multi-point  
locking system

Slam Lock

**Coupling Bar**

Sidelights are coupled with aluminium bar for greater security, rigidity and stability.

**Glazing Units**

Apeer70 doors have triple glazed units as standard.

**Apeer Traditional Glazing System**

Matching timber-effect raised mouldings fitted to the inside of the door and covers our reinforced, fully insulated toughened glazed units.

**Yale Locking System**

2 rollers, 3 hooks, 2 deadbolts and 1 latch, high security system protects your family from intruders.

**Kitemark Cylinder**

Anti-bump, anti-drill, anti-pick and anti-snap Kitemarked cylinder lock barrels are fitted as standard.

**Hinges**

Flag or butt hinges are fitted to Apeer70 doors to allow for adjustment.

Take it easy with  
our low maintenance  
colour match wood  
grain finish

YOU'RE  
HOME NOW

Our low-maintenance, highly robust colour finish is designed to stay looking good year after year, both on the outside and on the inside. Choose the perfect colour for the exterior of your home and match it with the perfect colour for the inside.

# COLOUR by design

**Colour Matching**

Our manufacturing process allows us the flexibility to colour match your complete door entrance system, inside and outside. Colour choices are not restricted to white frames, or to a white only finish on the inside.

**RAL/BS**

For a bespoke colour finish simply bring along a RAL or BS colour reference.

In order to ensure the best quality accessories are used on Apeer doors, New World reserves the right to replace any of the above options as required. Hardware comes with manufacturer's warranty. Please note the high level slam lock is not suitable for all users and we recommend you check with your supplier before final order sign off.

(RAL 6033)

Pale Lilac  
(BS24C33)

\* Metallic Colours are not available. There is an extra charge for Premium and RAL/BS colours.

Every effort has been made to reproduce the colour of our Apeer doors and the coloured film in the decorative glass designs. However, printing constraints will give rise to some colour deviation. For exact colour matching please request a sample from your approved supplier before purchase. Please note the grain on the GRP Apeer door does not replicate the grain on the frame as the frame uses a PVC foil. Glass designs shown in sidelights may vary depending on sidelight width. Coloured film in glass designs is not an exact match to the door colour.

Stay snug with  
double protection  
from draughts with  
our double rebate

YOU'RE  
HOME NOW

Did you know that much like your washing machine or your fridge freezer, your front door can be energy rated too? So, when we created our flagship product the Apeer70, we used the very latest in design and materials to help keep the heat in and the cold out; creating one of the most energy efficient doors available.

# A-RATED by design

**Double Rebate**  
Apeer70's double rebate system adds additional draught protection by creating an internal secondary rebated seal.

**Triple Glazed\***  
For better insulation every Apeer70 is equipped with toughened triple glazed units and Apeer44 with double glazed units. Glazed units are also available with Low E glass and can be gas filled to offer improved thermal performance.

\*Low E glass is only available in clear.

Choose from either one of our two main formats - Apeer70 and Apeer 44\*

YOU'RE HOME NOW

Apeer

Apeer may come in two formats, but the principles behind each remain the same. Whether you choose the 70mm thick, double rebate Apeer70, or the ingenuity of the 44mm thick, single rebate Apeer44, both perform exceptionally well in terms of energy efficiency, security and appearance.

# DIFFERENT by design

## Apeer 70

70mm of high density polyurethane foam, extra insulating double rebate, GRP inner frame, handmade triple glazed decorative units, double steel hinge bolts Kitemark version available, lifelike grain.

## Apeer 44

44mm of high density polyurethane foam, handmade double glazed Q Seal warm edge Super Spacer system, matched timber effect raised mouldings, flush fit, lifelike grain. (Apeer44 doors are not available in the contemporary style.)

\*Cutout shows Apeer70 on left and Apeer44 on right. The door codes featured in the brochure refer to Apeer70. For Apeer44 single rebate door codes change the code prefix to MO instead of AP, eg APA1 becomes MOA1.

**NEW Style** Apeer 70 Traditional

The APTS36 and APTS37 doors are designed to capture the effervescence of the Dublin street scene in 1800’s when chic new Georgian homes were being developed with strict architectural guidelines and residents personalised their homes with bright, colourful front doors. At that time, each building maintained the same uniform look and lacked any originality.

APTS36 and APTS37 are available in any colour combination from the standard and premium colour ranges. More glass designs coming soon!

**APTS36 FT82**  
Fused tile and sandblasted design

**APTS37 FT81**

Door Accessories

To complement our Apeer doors, we offer a range of high quality door furniture and door hardware. All door accessories are covered by a four-year surface finish guarantee.

Classic Lever Handles (also available with split handle)

Classic Lever Pad Handles (with split handle)

Contemporary Door Handles (only available in stainless steel)

Escutcheon Plate

Also available in brass

Finger Pull

Also available in brass

Karcher Lever handle

Available on most door styles and can be used internally with a bar handle externally.

Urn Kocker (Also available with spyhole)

Slimline Urn Kocker

Scroll Kocker

Contemporary Kocker

Lionshead

Numerals

Letterbox

Security Chain

Spyhole

Apeer70 Flag Hinge

Apeer70 doors are fitted with flag hinges. Colour options available.

Butt hinges also available in gold, white and brown.

Apeer44 Butt Hinges

Apeer44 doors are fitted with butt hinges. Colour options available.

Glass Options

With our Murano and Tahoe (RG Codes) glass designs you can co-ordinate the colour of the decorative glass to complement your choice of door colour.

Murano

Tahoe

Backing Glass Options

All of the door designs (except RG glass codes) featured throughout the brochure can be backed with a range of obscure glass to suit all requirements for energy efficiency, safety and privacy. This is our standard range but we can offer more styles upon request. Please note there may be an additional charge for non standard obscure glass patterns. There is no choice of backing glass for any of the RG glass code designs shown.

Fused Tile (FT Codes) Colour Options

Please note colour changes must be specified on the order form.

Please note Flemish glass once toughened can have a haze effect in the pattern, this is a normal part of the toughening process and is acceptable

\* Please note: The fused tiles in Murano and Tahoe glass designs are not an exact match to the door colour. The process in manufacturing all the fused tiles in our designs may lead to small air bubbles being present in the tile. This is a normal part of the fusing process and is acceptable.

Whilst care is taken to ensure that this brochure is as up-to-date and accurate as possible, no responsibility can be taken by New World for any errors or omissions contained herein. In order to meet customer demand New World reserves the right to change the supplier of patterned glass without prior notice.

Sidelights and Toplights

All decorative glass designs shown in doors with the RG code are available with a choice of sidelight and toplight options as shown. Due to the unique construction of the RG glass it is not possible to create matching sidelights or toplights. RG glass includes: Abstract, Bullseye, Classic, Clarity, Diamond Cut, Dorchester, Elegance, Linear, Matrix, Prairie, Reflections, Royale, Simplicity, Symphony and Tahoe.

Coupling Bar

All Apeer door and sidelight photos in this brochure are shown with coupling bar.

They are also available as a fully welded option. Carriage surcharge may be applicable.

Please note all doorsets over 1500mm must be coupled for greater rigidity, stability and durability.

Installation

Apeer doors should only be fitted by approved installers. To find your nearest installer please email your enquiry through our website with your address. [www.appeer.co.uk](http://www.appeer.co.uk)

# Choosing Solidor®

**We understand that knowing your home and family are protected is a major factor when choosing a new door.**

You can rest assured that with our door construction, coupled with our unique, reinforced door frame and Secured by Design locking systems, your home will be as safe as can be when you choose Solidor.

*A typical foam filled door construction*

*Solidor's unique solid timber construction*

**40mm Foam Filled Centre**  
performs thermally, but because this is a foam fill it is neither solid, nor secure.

**Visible Edge Banding**  
as a result you will often see a different coloured line running the length of the door.

**Gel Coated GRP Outer Skin**  
may offer protection but can be easily cut through. Also, because every door is a white blank that is surface painted they show scratches very easily.

**3 Chamber Profile**  
which use valuable steel or aluminium reinforcements. Also, you should check if they are lead free.

**44mm Solid Timber Core**  
that is thermally efficient and extremely secure.

**Hidden Edge Banding**  
so the front of your door remains a solid, glorious slab of colour.

**'Through' Colour ABS Skins**  
made from the same durable plastic as Lego®. Also, because the entire skin is made of a solid colour, any scratches are practically hidden.

**Lead Free, 5 Chamber Profile**  
which uses 100% recycled reinforcing. Generally, the more chambers that a profile uses, the stronger and more thermally efficient they are.

**Wood Grain Effect Skin**  
that gives all of the aesthetics of timber, but without the time consuming maintenance.

High security, energy efficient composite doors

## Security

## The most secure composite door on the market

### Lock options

#### The Largest Deadbolt in the UK!

On lever handle doors we fit our Avantis Secured by Design lock. This has the industry's largest 25.4mm deadbolt for added security.

It also has built in compression and dampeners to give the smoothest operation on the market.

#### Automatic AV2 Mech Lock

The automatic AV2 mechanical lock operates as a slam secure lock as soon as the door is closed.

AV2 B allows home owners to unlock the door from a distance using a remote control device. (Only available with a lever/lever handle)

#### Automatic AV3 Mech Lock

The new autoLock AV3 automatic multi-point locking system has a magnetic trigger in the frame. Two self-locking sturdy hooks provide security and two sealing elements ensure correct closure.

A daytime release function is integrated as standard with easy one-handed operation or motorised release.

### Lock Positioning

#### Standard Slam Shut Auto lock

The Slam Shut lock is an automatic multi-point locking system. It features two

self-locking hooks to provide additional security and two sealing elements ensure correct closure.

#### Heritage Slam Shut Lock

The aesthetics of a traditional rim latch, but incorporates the latest high security slam shut technology.

The lock automatically engages as the door closes.

#### Key Operated Multi-Point Lock

Customers who do not want handles can upgrade to our key operated multi-point lock.

To see our security test video visit [www.solidor.co.uk/tv](http://www.solidor.co.uk/tv)

### Supreme Security Accreditations

# A Colourful Entrance

We offer the **largest** range of colours from stock in the UK.  
Choose from **23 colours** inside and/or outside for the door with **18 frame** colour options.

\* Available as a door and/or a frame option

\*Due to the limitations of the lithographic printing process, colour samples may not be an exact match to actual doors.

Pilkington Texture Glass Warwick™

This design is unique amongst our patterns because it is produced using a different manufacturing method. Pilkington Texture Glass Warwick™ is a random pattern that is added along the central portion of the pane and this has implications when cutting the glass down into finished sizes. It is possible, if a pane is small enough, it could be cut with no evidence of the pattern at all.

None of the Pilkington patterns are designed to have an orientation (an up side) but care needs to be taken with adjacent panes that the pattern direction is maintained. There is a linear nature to Pilkington Texture Glass Warwick™ and so householders should be aware that there could be aesthetic implications when choosing this design. Also, for the glass supplier the result may be that this pattern is less accommodating when cutting and may result in a greater proportion of seldge from the original glass plate.

Glass - Bullseye

Available as inward or outward opening doors. Because our French door range is so vast, please contact us for the minimum and maximum sizes before you order your set.

**NOTE:** Available with UPVC and aluminium threshold on inward opening sets, and UPVC only on outward opening sets.

Flush, integrated two way lever, which throws the shootbolts and removes the need for a lever handle and cylinder to give the option to use our Italia Collection handles on both leaves, alternatively, go for lever operated!

Standard option is both doors to be lever handle operated.

# Finishing Options

## OUTER FRAME OPTIONS

Which frame would you like? Choose from Kömmerling Chamfered C70 or Sculptured O70 outer frame.

## EDGE BANDING COLOURS

White as standard, brown on Rosewood / Walnut and Schwarzbraun when coloured both sides, caramel on Golden Oak and Irish Oak when coloured both sides. For all other dual colour combination white edge band is use.

## Thresholds

To allow for every circumstance we offer the largest range of door thresholds. The AM3 and AM5EX aluminium threshold are both Part 'M' compliant within the latest Building Regulations for easy access.

AM3 (available in gold or silver)

AM3-70

AM5EX (Mobility Threshold) (open out)

Low UPVC

Standard UPVC

The stunning Cornish landscape that inspires Jo's work

Using carefully selected materials, the glass tiles are laid out and then baked in a kiln, producing really eye catching results.

Hand crafted, each piece of glass is unique, turning the door to your home into a stunning work of art.

# Traditional Range

Decorative Glass Backing glass not optional. Clear as standard
